🎓 Education

University of Turin   2021 - 2024
BS Computer Science   *Turin*

🧰 Experience

Auroware   Feb 2020 – Jun 2021
Co-Founder   *United Kingdom*

> * Co-founded an IT consulting company with two partners, leading business and technical aspects
> * Managed a team of three employees while overseeing project development
> * Collaborated closely with clients on defining, planning, and implementing projects
> * Led meetings with clients and stakeholders to communicate technical concepts and develop efficient solutions

GradFuel   Apr 2020 – May 2021
Project Manager & Full Stack Engineer   *United Kingdom*

> * Led a small team in building B2B SaaS graduate recruitment products using the MERN stack (MongoDB, Express.js, React, Node.js) and Agile methods
> * Achieved significant cost savings for companies by making the recruitment process easier and faster
> * Expanded companies' access to a wider pool of qualified candidates and improved the overall candidate experience
> * Contributed to GradFuel's valuation of £1.05M in 2020
